SUMMARY

Aspiring software engineer skilled in software development, cloud computing, and DevOps practices, with a strong interest in building scalable AI-driven systems and real-world automation solutions.

TECHNICAL SKILLS

Languages: Java, C++, JavaScript,
DevOps: Docker, Jenkins, CI/CD, Git
Concepts: REST APIs, Cloud Fundamentals

PROJECTS

- Breast Cancer Prediction and Prevention**
Machine Learning, Python, JavaScript, Claude
This project is an AI-based healthcare application that uses the EfficientNet-B3 deep learning model to predict breast cancer from mammogram images and provide prevention guidance for early awareness and risk reduction. The system analyzes mammogram scans to classify breast cancer as benign, malignant, or normal with high accuracy.

Apr 2026
- Cloud Based Storage System**
Python, MySQL, AWS S3, REST APIs
Developed a cloud-based storage system using AWS S3 for scalable file storage, implementing secure user authentication and REST APIs for efficient data management.

Nov 2025

EXPERIENCE

- Google Professional Certificate**
Cloud / IT Support
Completed Google Professional Certificate program covering cloud computing, networking, and system administration fundamentals.

EDUCATION

- VIT Bhopal University**
B.Tech CSE – Cloud Computing
CGPA: 7.7/10

Bhopal, India
Aug 2023 – May 2027
- Rose Convent School**
Class XII – 85%

Berasia, Madhya Pradesh
2023
- Father Agnel School**
Class X – 92%

Berasia, Madhya Pradesh
2020
